

Second Announcement

Dear all:

We are glad to inform you that our webpage is already available, please see

<http://www.dma.uem.br/algebra2014>

On this page you will be able to register and find some useful information such as: a preliminary list of speakers, the organizing committees, information on past editions of the “Escola de Álgebra”, a list of hotels and a link with local information.

If you plan to attend the meeting, please register as soon as possible. You don't need to give us much information at this point -- you can always add more information later. Beware that in the future only those registered will receive announcements like this by email.

We encourage you to submit an abstract for oral or poster communication. For oral communications we already have a list of thematic sessions and we ask you to choose one of them to submit your talk. The deadline for submissions is **April 14, 2014**, but you can only do it after your registration.

Beware that the deadline for submitting a proposal of a mini-course is **November 15, 2013**.

The page is still evolving, so check it every other week from now on.

Best regards,

Rosali Brusamarello

Chair of the Organizing Committee
